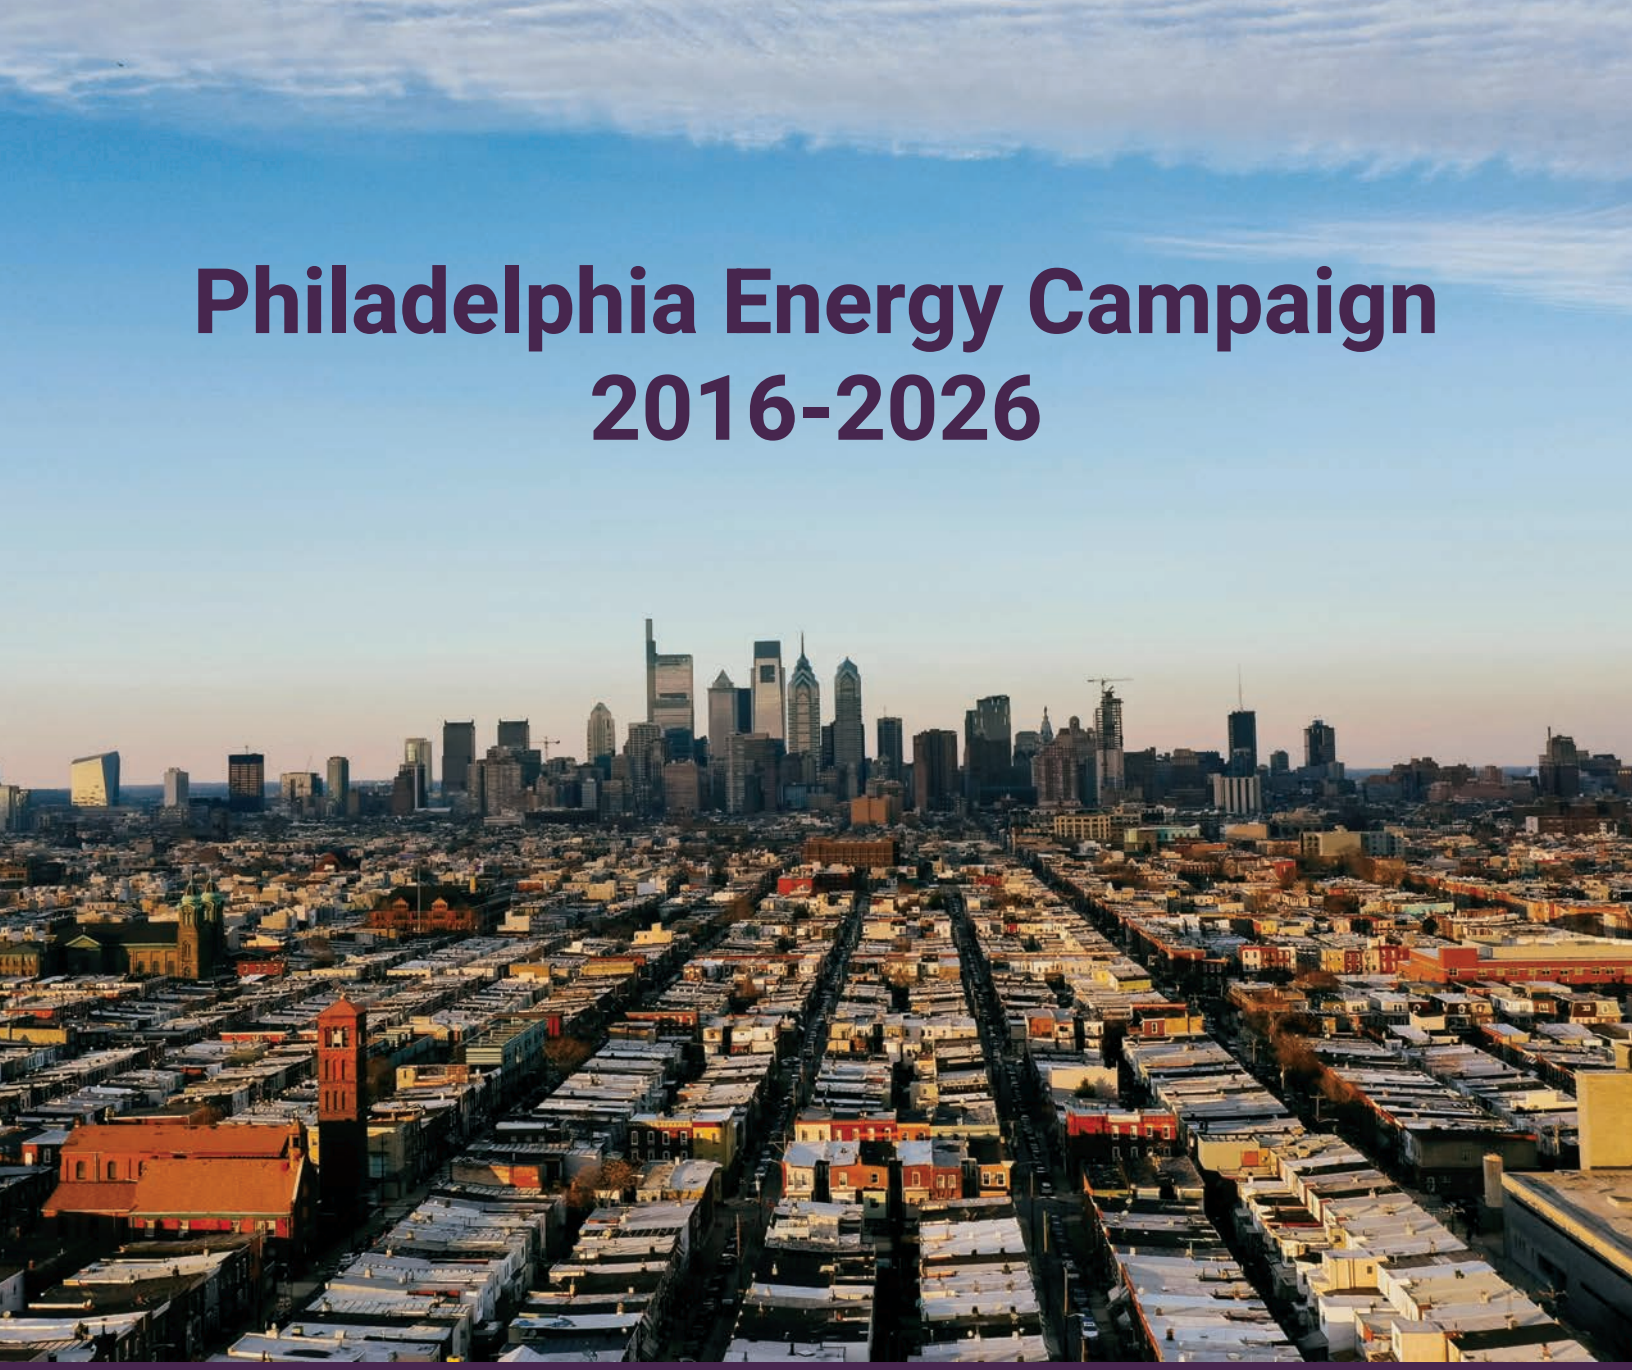
Philadelphia Energy Campaign 2016-2026



Building a clean energy economy that works for everyone

PHILADELPHIA
ENERGY AUTHORITY

Clean energy isn't one thing.

Goals Set »

The Philadelphia Energy Campaign set out to mobilize $1 billion of clean energy investments and create up to 10,000 jobs by 2026.

"Over the last ten years, the Philadelphia Energy Campaign exceeded every goal we set, and we redefined what's possible when vision meets action."

— Emily Schapira, CEO of the Philadelphia Energy Authority

Our work is grounded in four priorities that deliver lasting impact across the city:

- » **Affordability**
- » **Future-Proof Jobs**
- » **Healthy Communities**
- » **Building What's Next**

Lowering costs, strengthening Philadelphia's households, local businesses, public institutions, and city budgets.

- 500 whole-home repairs
- 4,300 solar installations
- 2,500 repaired sewer/ water lines
- Millions of dollars saved improving efficiency of 7 largest City buildings

Building a more resilient economy, supporting long-term employment for our region's talented workforce.

- 500 workforce training graduates
- Combined earn-to-learn trainings, industry credentials, wraparound support, and work-based learning

It’s everything.

Goals Surpassed

- **$1.3 billion invested** in local clean energy economy
- **11,415+ new jobs** created in Philadelphia
- **$1.4 billion in energy savings** for the City and our residents
- **$70 million in tax revenue** for City and state
- **562,000 metric tons** of avoided carbon emissions

“Our partnership with the Philadelphia Energy Authority has not only helped us get closer to a Safer, Cleaner and Greener city, but the positive economic indicators are off the charts.”

— Mayor Cherelle L. Parker

Supporting the City’s climate and environmental goals while creating safer, healthier neighborhoods.

- 130,000 LED streetlights, contributing to 21% decline in nighttime gun violence
- 15,000 students attending upgraded School District buildings
- 70-MW solar array supplies 20% of City’s electricity

Transforming public and private infrastructure through targeted financing and technical assistance programs.

- Launched affiliate green bank, Philadelphia Green Capital Corp., offering impact capital to projects
- 22 Commercial Property Assessed Clean Energy (C-PACE) deals closed

“The Philadelphia Energy Campaign demonstrates that clean energy is an economic development strategy, a cost-saving strategy, and a public health strategy all in one.”

— City Council President Kenyatta Johnson

Energy that Moves Philadelphia Forward

PEA and our green bank affiliate, the Philadelphia Green Capital Corp. (PGCC), are working to advance solutions that last — for people, for neighborhoods, and for the region.

We envision a clean energy economy built for now and powered for the future.
