

## QUALIFIED ENGINEERING PROFESSIONALS SELF-CERTIFICATION REGISTRATION FORM

The Philadelphia C-PACE program requires a Property Owner to obtain an Energy Conservation Measure Survey ("ECM Survey") performed by a Qualified Engineering Professional for Energy Efficiency and/or Water Conservation projects. The ECM Survey must establish an energy baseline or water usage baseline and the projected energy savings or water usage reductions in order to determine the viability of the qualified C-PACE Project and the projected energy or water savings.

To be considered a Qualified Engineering Professional, an individual must have at least one of the following certifications:

- Certified Building Energy Assessment Professional (BEAP) (offered by ASHRAE)
- Certified Energy Auditor (CEA) (offered by Association of Energy Engineers [AEE])
- Certified Energy Manager (CEM) (offered by AEE)
- Certified High-Performance Building Design Professional (HBDP) (offered by ASHRAE)
- Certified Measurement and Verification Professional (CMVP) (offered by AEE and Efficiency Valuation Organization)
- Licensed Professional Engineer (P.E.)
- Investor Confidence Project (ICP) Quality Assurance Assessor
- Investor Confidence Project (ICP) Project Developer
- Certified Passive House Consultant (CPHC)
- EMA's Energy Management Professional (EMP)

The Philadelphia Energy Authority ("PEA") will post a list of firms capable of providing these services on the Philadelphia C-PACE website. Please note that PEA does not verify, vet, endorse, or rank Qualified Engineering Professionals. It simply provides this list as a reference for Property Owners.

By filling out this form, Qualified Engineering Professionals are self-certifying their qualifications to perform the ECM Surveys required for C-PACE projects.

---

*By registering as a Qualified Engineering Professional, you are confirming that your institution meets at least one of the certifications listed above, is ready and able to engage with Property Owners in the Philadelphia C-PACE program, and that PEA may post your company information (as presented on the next page) on the Philadelphia C-PACE website.*
