Our impact over time

Here in Philadelphia, clean energy is not one thing. It's everything.

PEA advances solutions that strengthen Philadelphia today and prepare the city for tomorrow. In 2016, the Philadelphia Energy Campaign set an ambitious goal to invest \$1 billion in the clean energy economy and generate 10,000 jobs. We've exceeded those numbers and delivered even more for the region.

PEA is focused on solutions that are practical, fiscally responsible, and built to deliver long-term value for Philadelphia taxpayers and residents. Our solutions strengthen Philadelphia today and prepare the city for tomorrow.

- Helping residents and the City of Philadelphia save money
- Preparing workers to enter growing industries
- Modernizing public and private spaces
- Investing in a cleaner energy economy

Together, these efforts deliver energy that moves Philadelphia forward.

Trusted expertise. Accelerated timelines. Citywide impact.

PEA implements projects that reduce municipal operating costs, accelerate delivery of efficient public infrastructure, and enhance quality of life for Philadelphia residents.

As an independent municipal authority, PEA is positioned to be flexible and nimble, deploying solutions that are practical, fiscally responsible, and built to deliver long-term value for Philadelphia taxpayers and residents.

Partners in Project Implementation

PEA supports the City of Philadelphia throughout planning, procurement and delivery of large-scale clean energy projects. These projects reduce energy consumption and stabilize costs at a time when rising electricity and fuel prices place growing burden on municipal budgets. Our renewable energy upgrades are paired with enhancements that modernize critical infrastructure, achieving environmental and public health benefits while saving taxpayer money.
